Reliablity Engineering and System Safety **27** (1990) 387–388

CONTENTS OF VOLUME 27

Number 1

Special Issue: The Accident Sequence Precursor Methodology

Editorial 1

Application of Risk Perspectives in the Analysis and Evaluation of Operational Data 5
PETER LAM (USA)

The US NRC Accident Sequence Precursor Program: Present Methods and Findings 23
J. W. MINARICK (USA)

The German Precursor Study—Methodology and Insights 53
H. HOERTNER, P. KAFKA & G. REICHART (FRG)

Precursor Analysis—A Way of Testing Safety Analysis? 77
G. M. BALLARD (UK)

The Analysis of Accident Precursors and Near Misses: Implications for Risk Assessment and Risk Management 91
VICKI M. BIER & ALI MOSLEH (USA)

On the Inclusion of Precursor and Near Miss Events in Quantitative Risk Assessments: A Bayesian Point of View and a Space Shuttle Example . . 103
STAN KAPLAN (USA)

The Accident Sequence Precursor Methodology for the European Post-Seveso Era 117
ROGER COOKE & LOUIS GOOSSENS (The Netherlands)

Announcement 131

Number 2

Editorial 133

A Stochastic Model of Human Errors on System Reliability 139
CHEN-TAU HWANG & SHEUE-LING HWANG (Taiwan)

Generating Unit Modeling in Power System Adequacy Analysis. 155
R. BILLINTON & K. DEBNATH (Canada)

Reliability of Multicomponent Assemblages 167
D. A. REED (USA)

Reliability Engineering and System Safety (**27**) (1990)—© 1990 Elsevier Science Publishers Ltd, England. Printed in Great Britain

Risk Assessment for the Selection of a Chemical Munitions Disposal Alternative 179
M. G. STAMATELATOS, C. J. EVERLINE, D. M. LIGON, B. A. KURYK, T. S. KARTACHAK, W. E. FRAIZE & W. R. RHYNE (USA)

Optimal Testing Policy for a Computer System with Intermittent Faults . . 213
T. NAKAGAWA, M. MOTOORI & K. YASUI (Japan)

On 'Inclusion & Exclusion' and 'Sum of Mixed Products' Formulas to Calculate System Reliability with Common-Cause Failures 219
JOHN YUAN, SU-TSEN WONG & DER-LING TSENG (Taiwan)

An Integrated Program of Risk Assessment and Operational Reliability Monitoring at Ontario Hydro 231
F. K. KING, S. B. HARVEY & C. E. PACKER (Canada)

Phased Mission Effectiveness using a Nonhomogeneous Markov Reward Model 241
MARK K. SMOTHERMAN & ROBERT M. GEIST (USA)

Short Communication

Development of a Digital Reactor Control and Protection System . . . 257
H. HEYCK & M. SALM (Switzerland)

Announcements 267

Number 3

Reliability Analysis of Structure using a Coupled Monte Carlo–Boundary Element Method 269
ZHAO-JING ZENG (People's Republic of China)

A Data Base Oriented Dynamic Methodology for the Failure Analysis of Closed Loop Control Systems in Process Plants 275
MAHBUBUL HASSAN & TUNC ALDEMIR (USA)

The Computation of Failure Probability for Nonlinear Safety Margin Equations 323
Y-S. FENG (People's Republic of China)

Complementary Distribution Function for the Sum of Non-negative Random Variables: A Reliability Application 333
T. TROMBETTI & P. VESTRUCCI (Italy)

A Decision Model Concerning Two Options for Extension of a 150/10 kV Substation 347
J. C. H. SCHÜLLER (The Netherlands)

Reliability Apportionment for Phased-Mission Oriented Systems . . . 357
KYUNG S. PARK & YOUNG K. YOO (Republic of Korea)

Basic Power System Reliability Concepts 365
R. BILLINTON (Canada) & R. N. ALLAN (UK)

Announcements 385
